

FIRE FIRE! We started November off by learning about fire safety in preparation for firework night – we even had a visitor from a real firefighter who showed us his special uniform and taught us what to do if there is a fire. We then quickly saw a change in the weather which meant it was time to start learning about winter. We had a very cheeky visit from Jack Frost who tried to make winter stay forever! Luckily our amazing WANTED posters got him caught. It has been a great month of learning and growing.
