

From World Book Day to Science Day, we have certainly had a busy Month! We loved getting the opportunity to work with children in different year groups for WBD and we all looked amazing in our costumes! Science day was a great chance for us to get outside and look for mini-beasts. We ended the month with our parents coming in to play with us. We showed them our classrooms and our learning – it was so much fun. We are now ready for the Easter holidays after going to church - Happy Easter!
