

We have had an animal-filled month in Reception which included our first ever school trip to Longdown Activity Farm! We had so much fun seeing and learning about the different animals. We were also able to feed the calves and goats as well as hold chicks, guinea pigs and were even trusted to carry the eggs for the farmer! We also had new arrivals in the class for 2 weeks – chicks! They started as eggs and we got to watch them hatch and grow which was amazing! We learnt how to hold them safely and explored the life cycle of chickens during our learning time.
