

## The Foundation Stage Curriculum at Botley C of E Primary School

The Early Years curriculum at Botley C of E Primary School is underpinned by the knowledge and skills the children will need to achieve the Early Learning Goals by the end of their Reception year. The curriculum builds throughout the year, with medium term planning taking into account our culture, cohort and community at Botley. The learning the children will undertake throughout the year builds upon previous knowledge, skills and understanding, giving children a solid foundation with which to move in to Year 1. Children will be given opportunities to apply and practise new skills through continuous provision and enhancements, which will help build independence and confidence. Children are continually assessed through daily interactions with adults in provision and each child's needs are catered for individually to ensure they make the best progress they possibly can. There are exciting and engaging opportunities and experiences for the children within a rich environment both indoors and outdoors which promotes progress and the development of the characteristics of effective learning in every child, captures the children's interest and makes learning irresistible.
